In the management of estates, real or personal; in the execution of wills; as custodian of business by assignment; in any of the many functions of a trusteeship, a Trust Company presents advantages over an individual, whether in point of responsibility or of continuity of administration.

The presumption is, also, that a Trust Company, with officers and directors chosen because of their ability, knowledge and experience, and their familiarity with the various channels of investment offers-is actually able to offer better service than any individual.

## UNEXPECTED IMPROVEMENT

New York Stock Market Undergoes a Change for the Better.

Money Easier and Normal Banking Methods Returning-Nothing New in Indianapolis Cereals.

At New York, yesterday, money on call was easy at 3@4 per cent., the last loan being at 3, closing offered at 3.

Prime mercantile paper, 8@12 per cent. Sterling exchange was dull, with actual business in bankers' bills at \$4.85 4 @4.8534 for demand, and \$4.82 2 @4.824 for sixty days. Commercial bills at \$4.81@4.814. Posted rates, \$4.84@4.8742.

Silver certificates, 754c. Sales of certificats, 25,000. Bar silver closed at 74% c per onnce; Mexican dollars at 5934c. At London the closing price of bar silver was 34 ted.

The conditions which prevailed at the opening of the week's business on the New York Stock Exchange were entirely favorable to a bear movement, and it was natural to anticipate a material decline as the result of the day's dealings. But it was in a few instances, the general railway list, and the industrials, as well, show substantial advances as compared with the closing figures of Saturday. The influence of the bad crop reports had descended on the street before the trading began, and was supplemented by reports of decreased traffic returns of the granger roads, coupled with rumors of a division of sentiment among the directors of the St. Paul road as to the advisability of declaring a dividend. The weakness of American railway shares on the London Exchange was also in the interest of the operators on the short side, and to this was added heavy selling orders from London. Very little long stock was brought out as a result of the attack, and there was a remarkably strong buying at the decline. The shorts were surprised at the reserved strength of the market and possibly a trifle alarmed, and the pressure to sell was removed. whereupon prices took an upward turn. In many instances higher figpres were reached than prevailed Saturday. A factor in the upward movement undoubtedly was the ease in money and the return to the normal methods of transacting business by the banks in making deposits of currency with the subtreasury against certified checks for customs duties, and by the custom house in again accepting certified checks for duties, which go to show that the movement of money toward the metropolis is removing the last vestiges of the currency famine. #### LOCAL GRAIN AND PRODUCE. Trade Opens Fairly Active with but Few

Fluctuations in Values, On the wholesale streets there was con-

siderable activity yesterday, but not up to the volume of last week, something which no merchant expected. It is believed that September business is to be very satisfactory, compared with either of the three preceding months. There were a number of changes in the produce line yesterday, and provisions are very firm at the revision of Saturday. Poultry is weak, butter very scarce and a good article difficult to secure. Fruits are in good sapply but rotting badly, which keeps prices up. Both Irish and sweet potatoes are in good supply, but prices are well held. There is nothing doing in the wool market, and but little in the seed market.

There is some activity to the local grain market, but from day to day the variation in prices is but slight-what is gained one day is lost the next. Track bids yesterday ruled as follows:

## SOMETHING OF A GRAIN BOOM

Gain of Nearly 2e in Chicago Corn and Wheat Since Saturday.

Condition of Continental Wheat Even Worse than Previously Reported -Pork Advances 55c.

CHICAGO, Sept. 11 .- Soaring prices were the rule to-day on the Board of Trade. The government crop report did it. The advance was well maintained to the close. Final quotations, compared with Saturday's, show a gain of 1 c for wheat, 1 sc for corn and le for oats, while pork is up

55c. lard .174c and ribs .224c. Wheat at the opening was % @1c higher than Saturday's closing, and with slight fluctuations advanced %c more, then eased off %c, held quite steady, and the closing was about 11/2 to 134c higher than the opening, and was firm within 16@40 of top figures. The government crop report gave the continent condition of winter and spring wheat harvested as low as 74. This was quickly figured to mean a loss of 12,-000,000 bushels from the August estimate. The Liverpool cable was firm, and indicated very light output from all except American ports. In addition to all this, it soon developed that the visible supply was going to show another decrease, instead of increase of 2,456,000 bushels a year ago. There was free realizing on the bulge.

Corn was active, excited and considerably unsettled. The opening was % @ %c above the final figures of Saturday, the the price soon eased back 4@4c, when the market again railied, selling up a full cent for May and 14 @13sc for the near futures, receded asc, advanced asc and closed with 14 @ 134c gain. The report made the condition 76.7, against 87 last month. There were good rains in the lower Ohio and Mississippi river valleys and throughout the South, and longs apparently were rather disposed to realize on the prospect of the drought in Illinois and Indiana being at last broken. J. C. Schwartz, the largest short, was credited with increasing his line some, notwithstanding the advance. Oats advanced %@14c, and closed at about the top. There was liberal realizing on the bulge, and considerable changing from October to May. The government report indicated a much smaller crop than

Provisions continued dull. The firmness exhibited was in sympathy with the ad-Vance in corn. Freights were steady, with a fair demand at 1 2con wheat and 1 8 @140 on corn to Buffalo. Estimated receipts for to-morrow are: Wheat, 250 cars; corn, 1,100 cars; oats. 480 cars; hogs, 23,000. The leading futures

THE

# INDIANAPOLIS JOURNAL

DAILY.

SUNDAY

AND

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence andimportance. This want the Journal has always supplied as no other paper pubished outsideorinside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The running of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in transportation. The Journal is the paper for Indi-

Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to every hing having a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispens-
